## President's Corner

### Hello IBA Members

Although the weather wasn't the greatest in April, we still had two successful tournaments. Our next tournament will be May 5th and 6th. It will be a SYATT-Field shoot. I hope you can come out and help support the club at this tournament.

The 3-D and Field Ranges are in very good condition.

The weather is starting to co-operate with spring arriving. When at the range, be prepared for insects and snakes. Be sure to have plenty of water with you. Please come out and enjoy your club.

See You at the Range,

Doug

### Congratulations are in order to Ken Witt.

He has been on the Records Committee of North America Pope and Young Panel for several years and the Boone and Crockett Panel for 6 years.

He has now been selected to Chair the Panel for Boone and Crockett. This is a once in a lifetime honor selected by the Records Chairman of Boone and Crockett.

Again, congratulations, Ken, for a job well done in the field of scoring harvested trophy animals.

---

## Gate Change Notice

The gate code has changed. If you didn't get it, call the IBA number, 214 531 3226, also make sure your dues are paid and the insurance liability

form has been signed and returned for 2018.

## Editor's Corner

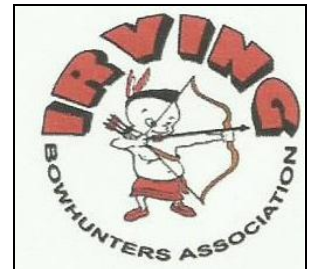

Check out the calendars below for upcoming tournaments and work parties.

Click on [ibatx.org](http://ibatx.org) to open and look at the updated IBA website.

Feel free to pass along any pictures or stories to include in your newsletter.

My contact information is [dsp578088@yahoo.com](mailto:dsp578088@yahoo.com) or text at 817-897-8860.

Debbie

**Serves:** 8

**Prep time:** 15 minutes

**Cook time:** 10 hours

**Total time:** 10 hours 15 minutes

**Ingredients:**

- 3 pounds venison, trimmed
- 5 slices bacon, chopped
- 1 small sweet onion, chopped
- 1 cup [homemade ketchup](#)
- 3 tablespoons fresh lemon juice
- 3 tablespoons [brown sugar](#) (packed)
- 2 teaspoons ground mustard
- 1 teaspoon [garlic powder](#)
- 2 tablespoons cornstarch
- ½ cup [beef broth](#)

**Directions:**

1. In a skillet, fry the bacon and onion until the bacon is slightly crispy; remove bacon mixture and drain. Brown each side of the venison with the remaining bacon grease. Spray the inside of a Crock-Pot with vegetable oil and add the venison. Then, add the bacon and onion mixture.

2. In a bowl, mix the ketchup, lemon juice, brown sugar, ground mustard and garlic together. Pour this mixture over the venison and cook on low for 10 hours. When done, turn the Crock-Pot on high. In a bowl, whisk the cornstarch and beef broth together and add to the Crock-Pot, stirring well. Cover for ten minutes. Give it a one final stir and it's ready to serve.

Tours are 3rd Saturday of the  
month 9-12 am only. Must call  
before going. No staff is on site.

We're on the Web!

[www.ibatx.org](http://www.ibatx.org)

Members have access to the Archery Facility at anytime, where they can shoot the practice range starting at 20 yards all the way out to 100 yards. They can also shoot our field range where targets are set from 20 yards out to 80 yards. We also have a 3-D Range with a variety of targets on different lanes located on rolling wooded hills.

### Field Archery

Three common types of IFAA and NFAA round are the field, hunter, and animal. A round consists of 28 targets in two units of 14. [2][3]

Field rounds are at 'even' distances up to 80 yards (some of the shortest are measured in feet instead), using targets with a black spot with a white inner ring and black outer ring. Four face sizes are used for the various distances. Scoring is five points for the center spot, four for the white inner ring, and three for the outer black ring.

Hunter rounds use 'uneven' distances up to 70 yards (64 m), and although scoring is identical to a field round, the target has an all-black face with a white bulls-eye. Child and youth positions for these two rounds are closer, no more than 30 and 50 yards (46 m), respectively.

### 3D Archery

The sport of 3D Archery is a form of Target Archery. It is also known as a very addicting and fun Archery sport in which anyone can participate at any skill level. 3D Archery can be set in the woods, fields and sometime even indoor ranges. The goal of 3D Archery is having the ability to guess how far away the target is and know where to shoot to achieve the highest possible score.

There are two types of archery events, marked yardage and unmarked yardage. The majority of the shoots are unmarked yardage. This means you stand at your designated stake and try to guess how far the target is. You then take your shot trying to score the highest possible points. In Marked 3D Archery, they will tell you at each stake, how far the target is. Your object is to hit the highest scoring ring.

### Types of Archery Targets

Generally, the 3D Archery will shoot at various animal shaped targets. These are close to life sized animals. The types of animals will vary depending on the club. You may see everything from Antelope, Deer, Sheep, Snakes, Beaver, Skunk, Moose, Elk, Cougar, Bobcat and much more.

3D Archery has many classes for different skill levels and equipment. Even beginners and children can have a lot of fun in this sport. The Archery equipment you use is the deciding factor on how far away your targets will be. An example for bow hunter class it 35 yards and under.
